### Planks

Wood: Laminated pine classified with guarantee quality by continuous internal control.

With autoclave treatment, protecting it from attacks of mushrooms, insects and termites. Water-based paint finish specially developed to protect wood from moisture, weather and U.V. rays. Contains active principles that give it a protective barrier against the appearance of fungi and molds;

### Panels

HDPE: High density polyethylene mono or two color. Being a polymer is characterized by its resistance to chemicals and corrosion. Due to its elasticity and lightness, it offers high impact resistance and is very difficult to break. The non-slip surface provides safety for children and its synthetic base prevents the growth of bacteria and fungi. It does not require any maintenance;

### Plastic parts

Tunnel: In corrugated tube made of polypropylene in accordance with EN 13476;

### Metal parts

Pipes: Stainless steel AISI 304 Ø54mm;

### Fixation System

allow their placement on the ground without the wood coming into direct contact with the earth. The bottom of these fastening systems are anchored to the ground. Manufactured in galvanized sheet steel;

Type A – Standard fixing system composed of metal base embedded in the ground and cast with concrete;

Type B – Standard fastening system consisting of metal base bolted to the ground with metal bushings;

Type C – Standard fixing system composed of plumbing applied directly to the ground and cast with concrete;

### Screws and accessories

Screws: Zinc-plated steel or optionally AISI 304 stainless steel;

Capsules: PP polypropylene plastic;
