Playfunctions

Swinging, sitting

Material

The poles are made of polished (K320) stainless steel 304 quality. The tube thickness is 88.9 mm with a wall thickness of 3.2 mm. The turning components of the swing are made of stainless steel with maintenance-free bearings. The birds nest, with a diameter of 1.00 meters, has a wall of plastic nylon (nylon) and an edge wrapped with rope. This hangs from a stainless steel chain witch is based with aa plastic tube.

Anchorage

The posts are 70 cm. in the ground.
Concrete is not required.

Comments

If the soil does not contribute to the stability it may be necessary to add concrete.
