Playfunctions

Education, sliding, combination equipment, climbing

Material

Poles are made of an recycled plastic. The top is covered with a pole cap. Wall of an outdoor quality colored 19 mm thick HMPE. All metal parts are powder coated aluminum. Connections are, where necessary, covered with a plastic cap.

Anchorage

The posts are anchored into the ground with galvanized steel ground anchors. These go to a depth of 50 cm in the ground and are attached to the underside with a plate to increase the support. Concrete is not required.

Comments

When the soil does not contribute to the stability, it may be necessary to add concrete.
