Material

Poles are made of an FSC preserved solid pine wood. The top is covered with a roof. Floors are completely recyclable and have an anti/slip profile. Climbing walls and walls of an outdoor quality colored 19 mm thick HMPE. The slide and roof are made of stained glass reinforced polyester. All metal parts are powder coated aluminum. Connections are, where necessary, covered with a plastic cap. Nets and ropes are made of 16 mm vandal proof Hercules rope.

Anchorage

The posts are anchored into the ground with galvanized steel ground anchors. These go to a depth of 50 cm in the ground and are attached to the underside with a plate to increase the support. Concrete is not required.

Comments

When the soil does not contribute to the stability, it may be necessary to add concrete.
