## Playfunctions

Education

## Material

The tubes are made of stainless steel.

Mutual communication is made by 2 tylenes tubes.

## Anchorage

The mouthpieces have a base plate and is buried about 50 cm.

## Comments

With this stainless steel speaking tube you can reach a distance of 25 meters. Installation will be based on actual costs due to hose length and soil. If the soil does not contribute to the stability may be necessary to add concrete.
